NATURE'S GIFT TO WINE

Adversity reveals character and that is precisely the obstacle that Chasing Rain overcomes. As Red Mountain only receives 5 inches of rain per year, our wine stewards have a passion and hands-on approach to applying the perfect amount of irrigation to our land. This allows us to consistently produce some of the best wines the world has to offer.

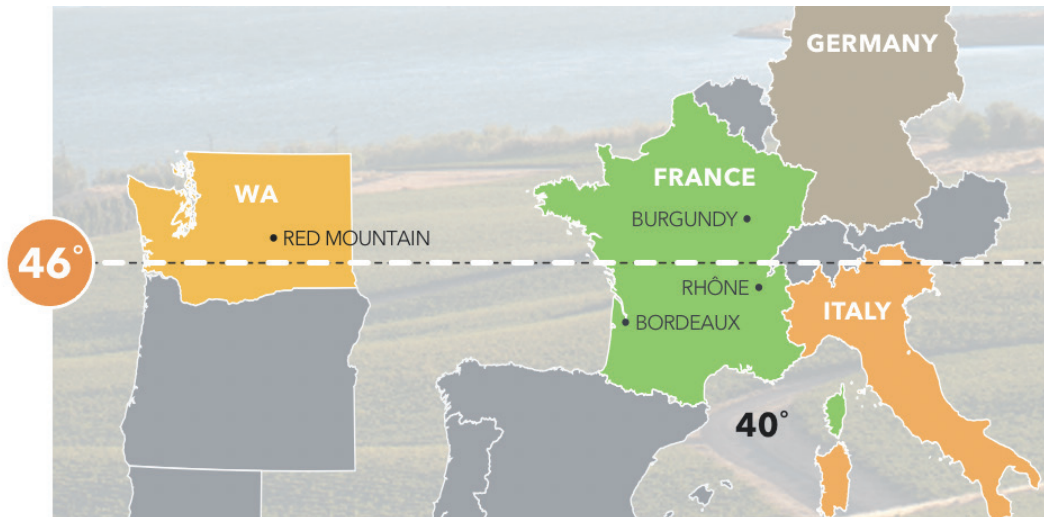

The Cabernet Sauvignon + Merlot 2018 received the prestigious Editors' Choice distinction for excellent quality at the price point.

Consumers of Super Luxury category are regular wine buyers who purchase 4-7x per month²

4-7x

59.7%  59.7% of consumers of the Super Luxury (\$25+) category drink wine at home.¹

RED MOUNTAIN

At 4,040 acres, Red Mountain is one of Washington's smallest and warmest appellations, with typical growing season daytime temperatures of 90 degrees. Averaging only 5-6 inches of rain each year, this AVA is dedicated almost exclusively to red wine and produces some of the state's most sought after wines.
